

# FOLDING TENT ADAPTER

## Simple and temporary stage roofing for your event

### 2 in 1 complete stage

Nothing is better for an event than a mobile stage as well as a simple and stable stage canopy. With the practical mounting plate, you can attach a folding tent directly to the stage frame. Within just a few minutes the folding tent can be set up and securely connected to the stage, allowing you any weather conditions.

### Support plate set (set of 4) for folding tents, consisting of:

- 4 x retaining plate with 4 M8 rivet nuts and 7 M10 rivet nuts for attaching folding tents
- 8 x threaded slide for attachment to the stage frame incl. slotted holes
- 8 x M10x20 screw for connecting the retaining plate and tent base
- 8 x M8x20 screw for connecting the retaining plate and tent foot
- Can also be mounted in conjunction with stage railings and their slides

Art. No. 61785

### Folding tents for your high-quality stage

In addition to our high-quality stage, we also offer you on request stable and self-supporting stage roofing in the form of a folding tent. Optionally you can add side panels to protect the actors on stage from wind and weather.
