FOLDING PLATFORMS

Presenting made easy

The Optimus platform not only impresses with its lightness and compact size, but also with its robust construction. With a weight of only 15 kg, it can be set up effortlessly by one person, and the integrated feet with automatic safety lock provide additional stability. Thanks to the low stacking height of 4 cm, it saves space in any room or vehicle. Ideal for events, schools and churches. The timeless design and durable construction make it a sustainable choice. Accessories such as stairs and connectors from Mott are fully compatible.

TÜV-tested in accordance with DIN 15921, with a surface load of 500 kg/m².

OPTIMUS

© Christina Lademann

Light, handy and stable!

The Optimus lightweight stage is perfect for marketing, presentations and events of all kinds.

This is ergonomics: fold up and lock into place. Press on the marking on the diagonal brace to unlock the foot again and fold it down. This makes assembly and disassembly much easier.

We have also equipped the Optimus with our new latching technology. The best thing about it: you don't need any tools or effort to set it up.
