* Base each equipped with 5 castors, 3 with brakes

All models of our mobile stages can easily be fitted with the stable and infinitely height-adjustable curtain backdrops.

Why use backdrop stands?

Your actors can stand "invisibly" right next to the stage or change clothes, for example. The mobile backdrop stands can also be used as practical elements to the side of the stage.

Fixed backdrop stand:

For attachment to all our stage elements. Deep black powder-coated tubular steel (RAL 9005). Continuously height-adjustable up to 250 cm including mushroom headband for attaching the stage curtain.

Mobile backdrop stand:

Freestanding, tubular steel, deep black powder-coated (RAL 9005). Continuously height-adjustable from 260 to 350 cm, including mushroom headband for attaching the stage curtain.

Curtain:

For backdrop stands with velour tape, smoothly sewn, stage molton, flame-retardant impregnated according to DIN 4102 B1, lightproof and sound-absorbing, color: black

Weight: 300 g/m²

Width: 200 cm
