## The Smart Transport Solution for LED Modules!

**FASTER. SAFER. MORE EFFICIENT.**

The CargoBox LEDTEK has been specially designed for professional use in the event and entertainment industry. It provides a robust, space-saving, and flexible transport solution for LED modules and serves as the perfect alternative to conventional flight cases and touring cases.

With intelligent design and well-thought-out features, the CargoBox enables quick transport, easy setup, and efficient storage – ideal for tours, festivals and trade shows.

# Attention & Product Highlights

## EFFICIENT LED TRANSPORT & QUICK SETUP

- **Pre-assembled modules:** The CargoBox allows two LED modules to be pre-wired and transported as a single unit. This saves valuable setup time.
- **Optimized space utilization:** Up to 5 m<sup>2</sup> of LED wall per CargoBox – safely stackable and transportable.
- **Reduced damage risk:** Open design for better ventilation and minimized moisture risk.

## TECHNICAL SPECIFICATIONS:

- **Model:** CargoBox LEDTEK
- **Capacity:** 5x 1x1m double panel (10 LED modules)
- **Dimensions:** 111 x 60 x 120 cm
- **Material:** Powder-coated steel (RAL 9005, deep black) & plywood board
- **Casters:** 4 swivel casters Ø 100 mm with brakes
- **Foldable & stackable:** Yes
- **Open design:** Yes
- **Custom adaptations for other manufacturers:** Available upon request
